Dear Mr. Kenney:

The Division of Water Pollution Control (division) received a letter dated April 7, 2011, from Andrew Chartrand. The letter described some corrections and additions that ETNG has made to its stormwater pollution prevention plan (SWPPP) for this project and attached the corrected pages. The division agrees that the addition of erosion and sediment controls and revisions to ETNG's SWPPP that do not result in a new pollutant source, change the nature or increase the quantity of pollutants discharged, or result in a direct discharge to waters of the state may be incorporated in the project SWPPP that is kept on site and that no permit modifications are necessary.

If you have questions, please contact the division at the Johnson City Environmental Field Office at 1-888-891-TDEC; or, at this office, please contact Ms. Erin O'Brien at (615) 253-2245 or by E-mail at Erin.O'Brien@tn.gov.

Sincerely,
